WHAT IS ROTO-JET?

An economical powdered parts wash detergent. This product is specially formulated to clean non-aluminum metal parts without the aid of hazardous solvents and when used as directed, will remove heavy grease and grime without harming metal or painted parts. ROTO-JET HD has been specially formulated to be very low foaming for use in heavy duty industrial mechanical spray wash machines.

BENEFITS:

- Special enhanced formula for deep cleaning of grease and oils.
- Low foaming for use in rotary and mechanical spray wash machines.
- Will clean the dirtiest of parts.
- Promotes splitting of oils for enhanced clean up.
- Contains special buffering ingredients to protect metals against corrosion.
- This product is 100% biodegradable for easy disposal.
- Designed specifically for the cleaning professional.
- Also available with virtually a foam free detergent system.

DIRECTIONS FOR USE:

Read the entire label and Material Safety Data Sheet before using this product. Do not allow cleaning solution to dry on surfaces.

DILUTION INSTRUCTIONS:

Soak tank: Use 1/2 to 1 pound of product per gallon of water, depending on quality of parts being cleaned.

Spray Cabinet: Use 1/4 to 1/2 pound of product per gallon of water, depending on quality of parts being cleaned.
