Power Pak KIT

POWER DEGREASER

Heavy Duty Super Concentrated Cleaner & Degreaser Kit

APPLICATIONS:

- Pressure Wash
- Mobile Wash
- Heavy Duty Cleaning
- Heavy Duty Equipment
- Internal Tanks & Tank Wagons
- Hot & Cold Water

Product Reorder No:

2689-P1	Liquid Part 1
2689-P2	Powder Part 2
2689-P3	Liquid Part 3

TECHNICAL DATA:

Color.....	Red
Odor.....	Butyl
pH.....	13.8
Form.....	Liquid
Flash Point.....	212°F
Foam.....	Moderate
Biodegradable.....	100%

WHAT IS POWER DEGREASER?

A super concentrated 3 part butyl and caustic based kit spray cleaner for removal of grease and oils on machinery, trucks, chassis, and concrete floors. Works well as a pretreatment for extreme cleaning conditions. Safe to use on multiple surfaces. Contains special corrosion inhibitors to help prevent build up on coils. For use with cold and hot water applications. This special 3 part kit helps to keep prices and inventory low.

BENEFITS:

- Special 3 part kit helps maintain costs and inventory.
- Specially formulated for deep penetration of heavy baked on oil, grease, and dirt.
- High foaming and economical allowing for multiple concentrations and applications.
- Contains materials to coat heating coils and prevent corrosion to both iron & yellow metals.
- Contains sequestering & chelating agents to prevent scale build up on coils when used on a regular basis.
- Safe for use on all non-painted metal surfaces..
- Removes grease, heavy soils, dirt, ink and all stubborn

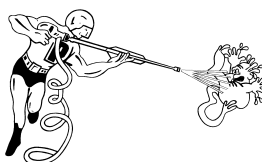

DIRECTIONS FOR USE:

Read label and Material Safety Data Sheet before using this product. Presoak surfaces to be cleaned. Clean from bottom up. Hold pressure wand at 45 degree angle with the surface to be cleaned so the spray bounces away from the operator. Cover surfaces quickly with cleaning solution. **Do not allow cleaning solution to dry on surfaces.**

DILUTION INSTRUCTIONS:

Add Part #1, Part #2, and part 3 to about 40-45 gallons warm water. Mix solution thoroughly until all the powders are dissolved and the solutions is uniform. This solution can then be used at 40-60:1 depending on the quality of the surfaces being cleaned.
